

The Klipsch School of Electrical and Computer Engineering at New Mexico State University

invites applications for a 9-month, tenure-track faculty appointment at the Assistant Professor level starting Fall 2009. Applicants should have a Ph.D. in electrical engineering or a closely-related field. Successful candidates are expected to establish a nationally-recognized, funded research program and demonstrate a strong commitment to teaching at both undergraduate and graduate levels. Primary technical field of interest is in the energy systems area but well-qualified candidates in technical areas that complement the department's programs will be considered.

The Klipsch School has 20 tenure-track faculty positions and an enrollment of 322 undergraduate students, and 154 graduate students. Externally-funded research programs are sponsored by national laboratories, federal, state, and commercial agencies.

Applicants in the energy systems area should have expertise in one or more of the following areas: power generation, transmission, distribution and utilization and the planning, operation, regulation and management of these facilities. The successful applicant is expected to be an active member of the Klipsch School's Electric Utility Management Program.

Applicants for the positions must submit (1) cover letter indicating area of interest, resume, and research and teaching statements and (2) names and contact information for at least three references. Send applications to Dr. Stephen Horan, Head ECE, Box 30001, Dept. 3-0, New Mexico State University, Las Cruces, NM 88003. Screening of applications will begin February 28, 2009 and continue until the position is filled.

NMSU IS AN EEO/AA EMPLOYER. All offers of employment, oral and written, are contingent on the university's verification of credentials, individual's eligibility for employment in the United States and other information required by federal law, state law, and NMSU policies/procedures, and may include the completion of a criminal history check.
